Mr. Kalyan Koley,
Founder & CEO

PROBLEM

~70% male goats **Castrated** for meat and **Sacrificed** at a young age

- Loss of **identification** of indigenous goats with Bengal Goat becoming **endangered**
- **50%** reduction in weight of a kid produced through poor in-breeding
- Loss of **~INR 4,000** income per goat of a farmer
- Increase in cost by **~INR 500** due to physical transportation of female goats to male goats for natural mating

OUR SOLUTION

Artificial Insemination

Buyback of goat kids

Training and consultancy
